

ISA
Indian Society of
Anaesthesiologists

Message by the President, Indian Society Of Anaesthesiologists National

Greetings to all the members of Indian Society of Anaesthesiologists (ISA).

PEAK: Practical Evidence in Anaesthesia Knowledge is a product of our endeavour for a National Level Supplement Journal. This is an initiative of College of ISA (CISA). I thank the Editor In Chief of this Journal Dr Sukhminder Jit Singh Bajwa and the entire editorial team for their efforts and commitment in bringing out this journal twice in a year.

Our journal the Indian Journal of Anaesthesia (IJA) is doing extremely well; we are very happy with the progress IJA has made over the years. The journal PEAK would give the additional possibility for publishing the work of several authors from several specialities in Anaesthesia.

We should strive hard to give visibility to several good clinical work and research that is being undertaken by our members.

We, the Governing Council of ISA and council members of CISA are committed to promote academics and research and PEAK is yet another endeavour in this journey.

In Gratitude & Best Regards

Dr. J. Balavenkat Subramanian
President, ISA National
Chancellor, CISA
